FREE PROMPT GUIDE

2 Prompts, 5 Small Ads

I asked Claude for small ads. It gave me five, in five completely different styles. Here are the exact prompts, the free plugin behind them, and extra prompts to make your own.

Atheef Abdul Rahman
Ailutions

No shoot. No editor. No After Effects. Two prompts and one free plugin: Lemo-Opuscar.

The exact prompts I used

I wanted small ads for Ailutions, so I asked for short 5 second animations. These two messages are all I typed.

1

FIRST, ASK FOR IDEAS

Give me some ideas for creating 5 second animation videos with Lemo-Opuscar skill

2

THEN, MAKE THEM

Make me these videos with Lemo-Opuscar skill

That is it. Claude suggested the ideas, and the plugin handled the style, the motion and the rendering.

Set it up once

1 **Install Claude Code**
Lemo-Opuscar runs inside Claude Code. Its makers tuned it for Claude Opus 5.5, and other models may not match the look.

2 **Check your tools**
You need Node 20+, ffmpeg 7+ and Python 3.11+ (or uv). The plugin installs the rest on first use.

3 **Install the plugin**
Run the two commands below in your terminal, once.

```
claude plugin marketplace add lemomo-ai/lemo-opuscar
claude plugin install lemo-opuscar@lemolab
```

Get the plugin

Lemo-Opuscar is free and open source: **github.com/lemomo-ai/lemo-opuscar**

The 5 small ads I got

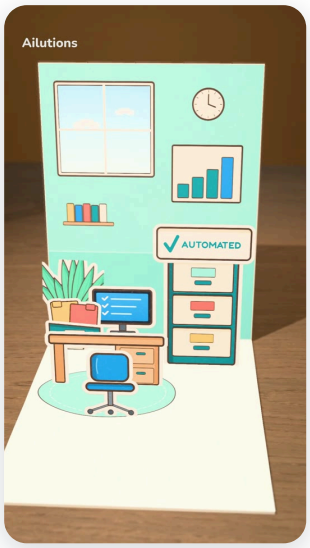
These are real frames from the videos. The style names are from the Lemo-Opuscar library, so you can ask for any of them by name.

AD 01

Inside an AI agent

Exploded Teardown

A chat bubble opens up to show the parts inside, each one labelled, then snaps shut.



AD 02

Manual work to automated

Paper Pop-up Book

A page called Manual Work opens, and a tidy office pops up from it.

AD 03

Lead to invoice

Transit Map

The sales journey drawn as a metro line, stop by stop.

AD 04

Ops assistant

Sci-fi Hologram HUD

A glowing machine works through inbox, calendar and billing.

AD 05

5 AI tips

Live Countdown Split-screen

A countdown from 5, with one tip landing on each number.

2 prompts

5 ads

Same two messages. Five different looks.
Everything on screen was made in code, not with AI video generation or stock footage.

Bonus prompts for your own ads

Fill in the [brackets] and paste. Start with Bonus 01 if you are not sure what to make.

BONUS 01

Ideas for your business

PROMPT TO CLAUDE

I run [your business] for [your customers]. Give me 5 ideas for 5 second small ads with Lemo-Opuscar skill. For each idea, tell me the library style, the one message, and the last line on screen.

BONUS 02

Make it for Reels

PROMPT TO CLAUDE

Make idea [number] as a 5 second vertical ad with Lemo-Opuscar skill, 1080x1920. Put my logo at the top left: [logo file]. Keep all text in the middle of the frame so Instagram buttons do not cover it.

BONUS 03

Show what is inside

PROMPT TO CLAUDE

Make a 5 second vertical ad in the Exploded Teardown style. Open up [your product or service] to show its 4 main parts, label each one, then close it again. End on [your brand name].

BONUS 04

Problem to solution

PROMPT TO CLAUDE

Make a 5 second vertical ad in the Paper Pop-up Book style. A closed page shows the words [your customer's problem]. It opens, and [the result you deliver] pops up. End on [your brand name].

BONUS 05

Your customer's journey

PROMPT TO CLAUDE

Make a 5 second vertical ad in the Transit Map style. Draw my process as one line with 5 stops: [stop 1, 2, 3, 4, 5]. Light up each stop in order and end on [the final result].

BONUS 06

Show your results

PROMPT TO CLAUDE

Make a 5 second vertical ad in the Sci-fi Hologram HUD style about [what your product does]. Use only these real numbers: [your numbers]. Do not invent any figures.

BONUS 07

Your own brand style

PROMPT TO CLAUDE

I want to change the Swiss Motion Graphics style into my own version. Use my colours [hex codes], my font [font name] and my logo [logo file]. Keep it as my style so I can reuse it.

BONUS 08

A longer ad

PROMPT TO CLAUDE

Make a 30 second vertical ad in the [style name] style for [your product]. The message is [one sentence]. The call to action is [what to do next]. Show me a storyboard first.

Good to know

Expect some waiting

The makers say a film can take 30 to 60 minutes and a fair amount of tokens. Start with short ones.

It may ask you questions

The plugin can ask one round of questions first, about your topic, your material and whether you want a storyboard. Just answer and let it continue.

Your ads will look different

Prompt 1 gives new ideas each time, so you will not get my exact five. Use the bonus prompts when you want a specific style.

Change it by asking

Not happy? Tell Claude what to change in plain words. You do not need to touch the code.

Browse all the styles

There are 66 styles to choose from. See them at lemomo-ai.github.io/lemo-opuscar.

Who owns it

The films you make are yours and need no credit. The plugin is by LemoLab, so please credit them if you share the plugin or their demo films.

Your turn

Make one small ad this week and tag me when you post it. I would love to see it.
